

Soudan Grass.

A number of bunches of this prolific Plains crop have been counted which had from 90 to 110 stalks all from one seed. This accounts for the small amount of seed necessary to plant an acre.

Although there are but a few thousand acres of this crop in the United States this year, the seed will be sufficient to sow millions of acres next year.

According to a statement of Mr. Vinall, of the forage division of the agricultural department at Washington, D. C., almost the entire crop of Soudan grass in this country came from the eight ounces of seed which the United States government imported from Soudan, Africa in March 1909. A shipment of twenty-five pounds was received later but most of the crop in the entire country has come from the original shipment.

If it were a pest, it would certainly be a fierce one to deal with since it multiplies so rapidly.

The seed from one crop that is growing in Nueces county, Texas this year will be sufficient to seed almost as large an acreage as the entire crop in the United States this year.

The entire crop in the United States this year will probably not exceed 15,000 acres. In 1915 the crop will reach 15,000 acres.

It is now being raised in quantities of as much as a few acres in at least fifteen different states, but it is estimated by men connected with the agricultural department of the United States that perhaps half of the entire acreage is in the state of Texas.

The seed which sold at \$1 per pound, wholesale, last year retailed at from \$2 to \$5 per pound will retail as high as \$1 again this year and possibly higher, and will sell at from 60 to 85 cents in larger lots. It is stated that it has started out at 60 cents in carload lots.

Even at this rate, the seed is not expensive as from one to three pounds is sufficient to seed an acre as it is being planted here in rows for the production of seed.

Curry County is experimenting with the crop this year and all reports are favorable. A sample brought to the News office is 10 to 12 feet high. A large acreage will be planted next year.
